

DAY 7 — LAB 7

Workplace Writing I: Professional Aviation Email

Weak Prompt and Output:

Weak Prompt

Write an email about the delayed flight.

Example Weak-Prompt Output

Subject: Flight Delay Notification

Dear Passenger,

We regret to inform you that your flight has been delayed by two hours due to adverse weather conditions. Flight AV408 from Delhi to Bengaluru will now depart at 5:00 PM instead of 3:00 PM.

Please check the airline application and airport display screens for further updates.

We apologise for the inconvenience caused and appreciate your patience and understanding.

Regards,
Customer Service Team

Diagnosis of Weak Prompt

Prompt Component	Present or Missing?	Required Improvement
Role	Missing	Define the AI as an airline customer-service communication executive.
Task	Partially present	Specify that it must draft a passenger delay email.
Context	Missing	Provide flight number, route, original/revised time and verified reason.
Constraints	Missing	State what information must not be invented and set a word limit.

Six-Part Prompt Analysis

Prompt Component	Information to Include
Role	Airline customer-service communication executive
Task	Draft a professional passenger email about Flight AV408's delay
Context	Delhi to Bengaluru; original departure 3:00 PM; revised departure 5:00 PM; two-hour delay due to adverse weather
Constraints	Do not invent gate, compensation, refund, meal, hotel or other policy details; keep below 130 words
Output format	Professional passenger email using BLUF
Tone	Calm, professional and reassuring

Structured Flight-Delay Prompt and Output

Structured Prompt

Act as an airline customer-service communication executive. Draft a professional email informing passengers of Flight AV408 from Delhi to Bengaluru about a two-hour delay caused by adverse weather. The original departure time was 3:00 PM, and the revised departure time is 5:00 PM. Ask passengers to monitor the airline's official application and airport display screens for further updates. Use the BLUF structure and keep the email below 130 words. Use a calm, professional and reassuring tone. Do not invent a gate number or mention compensation, refunds, meal arrangements, hotel accommodation or other policy benefits.

Generated Email

Subject: Important Update: Flight AV408 Delayed

Dear Passenger,

Flight AV408 from Delhi to Bengaluru has been delayed by two hours due to adverse weather. The revised departure time is 5:00 PM instead of the original 3:00 PM.

Please monitor the airline's official application and airport display screens for further updates regarding your flight.

We understand that changes to your travel schedule can be inconvenient and appreciate your patience and understanding.

Regards,
Customer Service Team

Weak vs Structured Output Comparison

Evaluation Criterion	Weak-Prompt Output	Structured-Prompt Output
Correct flight details	Yes	Yes
Main information stated first	Yes	Yes
Clear passenger instructions	Yes	Yes
Professional tone	Yes	Yes
Suitable email format	Yes	Yes
Unsupported commitments	None in this example	Explicitly prevented by constraints
Appropriate length	Yes	Yes
Ready for human review	Yes	Yes

Observation

The weak prompt may still produce a usable email, but it provides little control over the content. The structured prompt gives the AI verified facts, audience, tone, format, word limit and restrictions, making the output more controlled and easier to review.

Four-Dimension Review

Review Dimension	Issue Identified	Evidence	Correction Required
Accuracy	No major factual issue	Flight AV408, route, delay and revised time match the scenario	Verify all facts against the official operational system before sending
Tone	Appropriate	Calm and professional wording	Maintain reassuring but non-committal language
Compliance	No unsupported benefits included	No compensation, refund, meal or hotel promise	Continue avoiding unverified policy information
Context	Appropriate for affected passengers	Delay is stated first and passengers are directed to official channels	Keep the message concise and action-oriented

Final Revised Email

Dear Passenger,

Flight AV408 from Delhi to Bengaluru has been delayed by two hours due to adverse weather. The revised departure time is 5:00 PM instead of the original 3:00 PM.

Please monitor the airline’s official application and airport display screens for further updates regarding your flight.

We understand that changes to your travel schedule can be inconvenient and appreciate your patience and understanding.

Regards,
Customer Service Team

Passenger-Complaint Response

Six-Part Prompt

Prompt Component	Student Response
Role	Airline customer-service representative
Task	Draft a business-like response to a passenger complaint about a flight delay and lack of straightforward details
Context	Passenger states that a three-hour delay caused them to miss an key meeting and that airport staff did not provide straightforward details
Constraints	Acknowledge inconvenience; do not admit legal liability; do not promise compensation/refunds; do not invent policies; remain below 150 words
Output format	Professional customer-service email
Tone	Empathetic, respectful, professional and reassuring

Structured Prompt

Act as an airline customer-service representative. Draft a professional email response to a passenger who states that their flight was delayed for three hours, causing them to miss an important meeting, and that airport staff did not provide clear information. Acknowledge the inconvenience and show empathy. Do not admit legal liability, promise compensation or refunds, or invent any airline policy. Guide the passenger to an authorised customer-support channel for further assistance. Keep the response below 150 words. Use a professional, respectful and empathetic tone.

Generated Response

Subject: Response to Your Flight Delay Concern

Dear Passenger,

We are sorry to hear about the inconvenience caused by the delay to your journey and understand that missing an key meeting can be particularly frustrating.

We additionally acknowledge your concern regarding the clarity of details provided during the delay. Your feedback is key to us.

As specific compensation or refund details has not been provided, we are unable to make any commitments regarding these matters. Please contact the airline's authorised customer-support channel for assistance with your individual case and the latest applicable information.

Thank you for bringing your experience to our attention.

Regards,
Customer Service Team

Four-Dimension Review

Dimension	Issue Identified	Evidence	Correction Required
Accuracy	No unsupported operational facts	Only information from the complaint is used	Verify individual flight records if required
Tone	Appropriate	Empathetic without being excessive	Retain respectful language
Compliance	Appropriate	No compensation/refund promise or liability admission	Refer policy questions to authorised support
Context	Appropriate	Addresses inconvenience and information concern	Keep response centred on the passenger's concern

Internal Staff Email Activity

Six-Part Prompt

Role: Act as an airport terminal manager.

Task: Draft a business-like internal email informing staff about longer-than-usual passenger queues at security screening.

Context: Passenger queues at security screening are currently longer than usual, and additional staff have been assigned to assist with queue management.

Constraints: State the main issue first, avoid blaming any department, provide straightforward staff instructions and keep the email below 120 words.

Output format: Internal staff email using the BLUF structure.

Tone: Professional, concise, operational and collaborative.

Initial Email

Subject: Security Screening Queue Update

Dear Team,

Passenger queues at security screening are currently longer than usual. Additional staff have been assigned to assist with queue management.

All relevant staff are requested to support orderly queue management and assist passengers where needed. Please maintain straightforward communication with passengers and coordinate with the assigned team members.

Avoid directing blame toward any department and focus on maintaining smooth passenger movement.

Please continue monitoring the situation and follow operational instructions from the terminal management team.

Regards,
Terminal Manager

Review

- Main issue is stated immediately.
- Staff action is clearly communicated.
- No department is blamed.
- The tone is appropriate for internal communication.
- No unsupported operational information has been added.

Final Version

Dear Team,

Passenger queues at security screening are currently longer than usual. Additional staff have been assigned to assist with queue management.

Please support orderly passenger movement, assist passengers where needed and coordinate with the staff assigned to queue management.

Maintain straightforward and business-like communication with passengers. Please avoid attributing blame to any department and focus on maintaining smooth operations.

Continue monitoring the queue situation and follow further instructions from terminal management.

Regards,
Terminal Manager

Audience and Tone Activity

Audience	Required Tone	Information Priority	Main Difference
Passengers	Calm, reassuring, empathetic	Delay, revised departure time and passenger action	Focuses on what the passenger needs to know and do
Senior management	Concise, factual, formal	Operational impact and current status	More management-oriented and less passenger-facing
Operations staff	Direct, operational, collaborative	Operational information and required action	Focuses on coordination and immediate staff actions

Passenger Version

Dear Passenger,

Flight AV408 from Delhi to Bengaluru has been delayed by two hours due to adverse weather. The revised departure time is 5:00 PM instead of 3:00 PM.

Please monitor the airline’s official application and airport display screens for further updates.

We understand that changes to your travel plans can be inconvenient and appreciate your patience and understanding.

Regards,
Customer Service Team

Senior Management Version

Subject: Operational Update — Flight AV408

Flight AV408 from Delhi to Bengaluru has been delayed by two hours due to adverse weather. The revised departure time is 5:00 PM, compared with the original 3:00 PM departure.

Passenger communication should direct affected passengers to the airline’s official application and airport display screens for further updates.

Operations Staff Version

Subject: Flight AV408 — Operational Communication

Flight AV408 from Delhi to Bengaluru is delayed by two hours due to adverse weather, with the revised departure time of 5:00 PM.

Please ensure affected passengers are directed to the airline’s official application and airport display screens for further updates. Do not provide unverified details regarding gate allocation or passenger benefits.

Peer Review

Review Question	Yes/No	Suggested Improvement
Are all facts supported by the scenario?	Yes	Continue verifying operational facts before sending
Is the main information stated first?	Yes	Maintain BLUF structure
Is the tone appropriate for the audience?	Yes	Keep audience-specific wording
Are passenger or staff instructions clear?	Yes	Keep instructions action-oriented
Has unsupported policy information been avoided?	Yes	Do not add compensation or refund promises
Is personal information protected?	Yes	No passenger personal information is included
Is the email concise and readable?	Yes	Continue using short paragraphs
Does it require human approval?	Yes	Final operational communication should be reviewed before sending

Final Revision After Peer Feedback

The final drafts were revised to keep the main details at the beginning, remove unsupported commitments, maintain concise instructions and ensure that the tone matches the intended audience.

My Reflection

1. What are the six parts of a structured email prompt?

The six parts are **Role, Task, Context, Constraints, Output Format and Tone**. These components help the AI understand what it needs to write and how the final communication should be presented.

2. What does BLUF mean?

BLUF means Bottom Line Up Front. It means putting the most key details at the beginning of the message.

3. When is BLUF useful in aviation communication?

BLUF is helpful when details need to reach people quickly, such as during flight delays, cancellations, gate changes and operational updates.

4. What does PAS mean?

PAS stands for **Problem, Agitation and Solution**. It is a communication structure commonly used for persuasive or marketing messages.

5. Why should PAS be used carefully?

PAS should be used carefully as exaggerating a problem can create unnecessary fear or anxiety. Aviation communication should remain factual and responsible.

6. What are the four dimensions of the review gate?

The four dimensions are **Accuracy, Tone, Compliance and Context**.

7. What unsupported commitments must be avoided?

Unsupported commitments include **compensation, refunds, meals, hotel accommodation, specific policies, confirmed gates or other benefits** when they have not been verified.

8. How does the intended audience affect the tone?

Different audiences need different communication styles. Passengers need straightforward and reassuring details, senior management needs concise factual information, while operations staff need direct and action-oriented instructions.

9. How did peer feedback improve your email?

Peer feedback helped identify areas where instructions could be clearer and where unnecessary details could be removed. It additionally helped ensure that the email remained concise and suitable for its audience.

10. Why must AI-generated business communication receive human approval?

AI can generate fluent text but may misunderstand details or introduce unsupported claims. Human review is therefore necessary to verify accuracy, tone, compliance and context before key business communication is approved or sent.

AI Usage Declaration

ChatGPT and/or Google Gemini were used to create initial drafts during this activity. I independently reviewed the outputs for accuracy, tone, compliance and context, revised the drafts and completed the reflection.
